CLASS
 SPACES:
15

ABOUT THE WORKSHOP

This simple project case was designed with new and young needleworkers in mind. It is something small, achievable and (perhaps most importantly) useful! Some students may be able to take it home completed. The class focuses on learning the stitches well and being able to complete each stitch beautifully. Comprehensive instructions are supplied so you will always have material to refer back to. Learn the following stitches: Chain, wave, long and short, fishbone, fly, wheatear, woven, Van Dyke, web, knots, stem and satin. Students can change stitches or add more to the design if they wish.

ABOUT THE TUTOR

Fiona is an award-winning embroiderer and has been tutoring in New Zealand for a number of years.

She loves sharing her love of stitch with others and encourages others to embroider lovingly created home-made, hand-made treasures.

Her classes come with comprehensive instructions.

WORKSHOP NEEDS LIST

#213: 12 Stitches Project Case

Fiona Crowther-Aker

Kit cost: \$40

Choose from black or beige background –
these will be supplied pre-cut and prepared, ready to stitch.

Participants should bring:

- Perle 8 threads of your choice
